

16.8671 FROMM MOTOR GROUP WITH SHOCK ABSORBER (FROMM PATENT)

- Motor** 0,55Kw;
Gearbox ratio 1/40;
Motor bracket strong solid design in steel;
Additional brackets for motor/gearbox movement;
Automatic mechanical chain tension adjustment;
Polyurethane spring to absorb excessive shock;
Polygene guides at the pinion of the motor group;
Polygene guides at central turntable pinion;
Low maintenance system; (FROMM PATENT)
- Zero position** maintenance free proximity sensor mounted on motor shaft
(FROMM PATENT)
- Warrantee** due to the patented shock absorber we guarantee the working of this gearbox / motor group, according our standard warrantee conditions.
